

Human Sciences – Nutrition and Food Science

Admission Requirements

1. An upper-division undergraduate GPA of at least **3.0** on a **4.0** scale. The same scale applies for graduate-level work. A professional degree is not counted for university GPA requirements.
2. A master's degree or post-baccalaureate professional degree from an accredited university.
3. A competitive **Graduate Record Examination revised General Test (GRE)** score; recommended score of above the 50th percentile (approximately 150) in both verbal and quantitative sections with a 4.0 or higher on the writing section. Please note that it can take up to ten (10) days after sitting for the GRE for an official score report to be sent to the university.
4. International students must have an official **TOEFL** score of at least 550 (paper-based) or 80 (Internet-based) to meet university requirements. The department recommends 600 (paper-based) or 100 (internet-based) for a competitive application to the doctoral program. Our department does not accept other English proficiency examinations (i.e. IELTS).
5. A visit to the department is strongly encouraged. Please contact us at nfes_gs@fsu.edu to schedule your visit. Before you submit your online application and pay the application fee, you should directly contact graduate faculty members in your area of interest to see if they have room in their labs and are willing to mentor you.

Attainment of these minimum requirements does not guarantee admission to the program. Admission decisions are based on assessments of all aspects of the student's application materials. The department reserves the right to increase standards if warranted by enrollment limitations and by the number and quality of applicants. Financial aid is a separate process from the admission to a graduate program.

Application Process & Deadline

Only complete applications will be reviewed. This program admits in the **fall (April 1 application deadline)** and **spring (October 1 application deadline)** semesters. **All application materials must be received by the deadlines posted above.** However, in order to be considered for an assistantship, admissions applications should be completed earlier (February 1 for fall and July 1 for spring).

1. Apply Online and pay the application fee.
 - Upload a personal statement (a.k.a. statement of purpose) outlining your research interests and career goals. Include how your background and prior training make you a good candidate; why Florida State University is a good fit for you. You must state whether you wish to pursue the **Food Science** specialization or the **Nutrition Science** specialization. We strongly encourage applicants to familiarize themselves with the [research interests of the faculty](#) in their area of specialization. In the statement, please indicate your top choices of faculty members with whom you would like to work.
 - Upload a resume or vita (information should be current).
 - Upload contact information for three recommenders. The recommenders should be professionals you have worked for who are familiar with your academic performance and can speak directly about your qualification for this degree. Academic recommendations are preferred and relevant professional recommendations will be accepted. No personal

recommendations or letters from peers will be accepted. **Recommender letters must be received by the posted deadline.**

2. Submit official test scores (GRE and, if required, TOEFL) to the FSU Office of Admissions. The school reporting code for test scores is 5219; no department code is required.
3. Submit official transcripts (with translations if necessary) to the [FSU Office of Admissions](#). We require transcripts from EVERY post-secondary institution you attended (even if those courses are posted to another institution's transcript).

Please allow a minimum of ten (10) business days for the Office of Admissions to process your incoming materials.

If you have any questions about the application process, please contact us at nfes_gs@fsu.edu.

Note: For those students who wish to pursue a Registered Dietitian (RD) credential in the U.S., NFES offers a +Dietetic Internship (+DI) that may be completed concurrently with our doctoral degree program in Human Sciences - Nutrition and Food Sciences. Doctoral students that have completed Didactic Program in Dietetics (DPD) undergraduate courses may be eligible to apply to +DI. **If applying for the +DI to start in the fall semester, we must receive all admissions application materials for the doctoral program by the preceding **December 15**.** For more information about +DI, we direct you to that website: <http://humansciences.fsu.edu/departments/nutrition-food-exercise-sciences/dietetic-internship/>
